More ships announced for Baylake Bank Tall Ship Festival

Green Bay (Feb. 10, 2010) – PMI Entertainment Group is announcing more ships for the Baylake Bank Tall Ship Festival in downtown Green Bay August 13-15.

H.M.S. Bounty – used in the movie *Pirates of the Caribbean II*. She was built for the 1962 movie *Mutiny on the Bounty* by MGM Studios and later operated as a sail training vessel. *Bounty* and her crew helped prepare the officers and crew to sail USS *Constitution* for her bicentennial sail in 1997.

Roseway – first built as a private fishing yacht. She is now used as an educational vessel focusing on marine ecology, maritime history, stewardship, seamanship and community services. She also starred in the TV movie *Captains Courageous*.

Pride of Baltimore II – is a top-sail schooner built to the lines of an 1812-era Baltimore Clipper. Part of her mission is to provide a unique education platform through onboard activities and the Internet for American history and marine sciences. She maintains an international sailing schedule.

These ships join two previously announced ships - ***Unicorn*** and ***S/V Denis Sullivan***. There will be a total of twelve or thirteen ships at the festival. The rest are expected to be announced in April.

There are still opportunities for companies or organizations to sign on as community partners. If you want to become involved with this unique and prestigious international festival of sailing pageantry, please call Cindy at 920.676.8883.

The American Sail Training Association has partnered with Great Lakes United to bring a fleet of tall ships to the Great Lakes, the world's largest body of fresh water, as part of the Great Lakes United TALL SHIPS CHALLENGE® 2010 race series. The tall ships race runs through all five Great Lakes making port appearances in cities throughout the US and Canada. Two important initiatives sail along with the tall ships: water conservation education and youth sail training!

Unlike the 2006 festival, this year's festival grounds will be contained on the west side of the Fox River at Leicht Memorial Park and near the Neville Public Museum. The festival will include interactive ship tours, sail opportunities on select ships, maritime music & roving entertainment, children's area and educational programs.

Green Bay is the first and only city in the state to have hosted a Tall Ships Challenge® event of this size and scope. Expected to draw 75,000 people, the festival is being produced by PMI Entertainment Group. For further ship or other information, go to www.tallshipgreenbay.com.
